Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

- The primary reasons for allowance for claims 16-20 are the limitations of a single pass inkjet printhead comprising orifices being arranged in a pattern such that adjacent parallel lines on the print medium are served by orifices that have different positions in the array along the direction of the print lines, that are separated by a distance that is at least an order of magnitude greater than but no more than two orders of magnitude greater than the distance between adjacent orifices in a direction perpendicular to the print line direction. It is these limitations, either alone or combined as claimed, that have not been taught, found, or suggested by prior art.
- The primary reasons for allowance for claims 21-26 are the limitations of a single pass inkjet printhead comprising orifices being arranged in a pattern such that adjacent parallel lines on the print medium are served by orifices that have different positions in the array along the direction of the print lines, that are separated by a distance that is at least an order of magnitude greater than the distance between adjacent orifices in a web direction, the web direction being perpendicular to the print line direction, wherein the ratio between the largest distance between adjacent orifices in the web direction and the smallest distance between orifices in the web direction is no greater than 1.67. It is these limitations, either alone

or combined as claimed, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
